New Berlin, WI 53151

RECEIVED-DNR
DEC 1 2006
DRINKING WATER & GW

Dear Mr. Grzys:

Subject: Radium Consent Order Status Confirmation

As you know, the deadline established in your Consent Order for providing consumers with drinking water that meets radium safety standards is December 8, 2006.

The Department is asking you to provide a compliance status report by December 15, 2006. Please include sampling data compiled since the date you entered into the Consent Order. If further work is necessary to assure sustainable compliance with the radium standard, while at the same time meeting peak water demands, please include a detailed timeline for completion of construction, start up of new facilities and compliance sampling.

Please submit your status report to:

Debby Roszak
DNR Southeast Region Headquarters
2300 N. Dr. King Drive
Milwaukee, WI 53212

As noted in previous correspondence, the Department intends to begin the process of referring systems that do not meet the December 8, 2006 compliance date to the Wisconsin Department of Justice.

Sincerely,

Steve Sisbach,
Enforcement, Investigations & Emergency Management Section
Bureau of Law Enforcement
